VOLVO REMAN
CERTIFIED REFURBISHMENT PROGRAM

Give your trusted Volvo machine new life. With the Volvo Certified Refurbishment Program you can extend the life of your machine, increase your resale value, and reduce unplanned machine downtime. Simply put, this tailored service allows you to get even more out of your machine investment.

Refurbishing your machine after approximately 12,000 operating hours – prior to major component failure – is the most economical option in terms of optimizing machine availability and cost control. We can help determine the optimal time and scope for refurbishment using a range of analysis tools.

Volvo quality every step of the way
Together, you and your Volvo Certified Refurbishment dealer, agree on what needs to be done to ensure that your machine runs reliably and efficiently for many years to come. We start with a driveline refurbishment and then decide what to add or omit according to your needs and budget. Perhaps it involves rebuilding the powertrain to avoid a major component failure. Or perhaps you want a machine that performs and looks like new. Whatever the case, you can expect high quality at every step in the refurbishment process.

Refresh your machine – and your productivity
• Rebuild of the machine power train using Volvo Reman components
• Like-new look: clean, paint, decal
• 90-point machine inspection from certified Volvo technicians
• Customizable level to meet your demands and budget
• All filters and fluids are replaced
• Exhaust emissions reduction retrofit available

• Extend the life of your trusted machine
• Like-new condition at the best price
• Increase resale value
• Reduce unplanned machine down time
• Volvo Financial Services available to level out costs further

VOLVO REMAN
Keep your machine running reliably and efficiently with the Volvo Reman program. It includes a range of remanufacturing and refurbishment services that give you high quality and availability. The result? Maximum machine uptime, extended service life and lower owning and operating costs.

Nobody knows Volvo machines better than Volvo. We have the training, tools, knowledge and commitment required to refurbish your machine according to your requirements.
COMPONENTS OF VOLVO CERTIFIED REFURBISHMENT

With Volvo Certified Refurbishment, you can look forward to a truly tailored solution for your machine. To meet your specific requirements, you and your dealer agree on which of the following services that should be included in the refurbishment.

Articulated Haulers and Wheel Loaders

- Engine: replaced with a Volvo Reman engine, including new mounts, intakes, fuel lines, clean/replace charge air cooler if necessary
- Transmission: replaced with a Volvo Reman transmission, including coolers
- Transfer gearbox (drop box): replaced with a Volvo Reman unit and replace mounts (Articulated Haulers only)
- Pump drive/PTO: inspect and replace bearings, seals and drive flexplate (Articulated Haulers only)
- Rebuild trunions, rebush and reseal (Wheel Loaders only)
- Axle shafts: inspect (Wheel Loaders only)
- Radiator: clean and pressure test, replace coolant hoses
- Final Drives will go through a re-bearing and reseal process: replace all bearing cups and cones; all needle bearings and bushings, all seals and gaskets
- Differentials: perform a thorough re-bearing and reseal process: replace all bearing cups and cones, replace all seals and gaskets
- Brakes:
  - Parking: replace pads, reseal
  - Wet or dry: inspect condition, quote repairs if needed
- Drive Shafts: replace u-joints, prop shafts to be high speed balanced
  - Intermediate shaft: replace bearings and reseal
- Replace operator seat and seat belts
- Clean, paint and decal machine
- Replace all filters and fluid

Refurbishment also includes items in need of repair or replacement that are identified during inspection or tear down – and which you have approved to repair or replace. You decide the systems to include in the refurbishment and which to omit.

Warranty

- 1 year/2500 hour warranty on Volvo Reman and drive train specific parts
- 1 year/1500 hours warranty on other parts
- Purchase an extended warranty: 3 years/6000 hours on Volvo Reman components and Genuine Volvo Parts

Refurbishment is much more than a rebuild – it's like upgrading your machine. We use only Genuine Volvo Parts and Volvo Reman components, which include all the latest upgrades and technical modifications.
